LETTERS IN REGARD LIQUOR CONSTABLES

PASSED BETWEEN GOVERNOR
AND COUNTY OFFICIALS

BOARD REPLIED

That They Thought it Would be
Unwise to Have Appointments Made.

The following correspondence was handed to The Intelligencer yesterday morning. It relates to the desire of Governor Manning to appoint two whiskey constables in this county after he had received a letter from Sheriff Ashley requesting that this be done. The refusal of the county board of commissioners to pay the salary of such officers if appointed.

The letters follow:
Columbia, July 21, 1915.
To the Board of County Commissioners, Anderson County, Anderson, S. C.

Dear Sirs:—
Under Section 840, Volume 2 of the Code of 1912, I desire to appoint two constables to enforce the liquor laws of this state in Anderson county. The statute provides that "the salaries and expenses of such officers is to be paid out of the profits of the dispensaries wherein they may be established, and out of the ordinary funds in counties wherein they have not been established. Under this provision I would be glad to have your assurance that you will approve the bills for the compensation of these constables. I think that a fair rate of compensation would be \$3.00 a day to each constable.

I would be glad to hear from you on this at the earliest possible date.

I am,
Very truly yours,
(Signed) Richard I. Manning,
Governor.

Anderson, S. C., July 24th, 1915.
Gov. P. I. Manning,
Columbia, S. C.

Dear Sir and Governor:—
It is the unanimous opinion of the board of county commissioners for Anderson county that the appointment of whiskey constables would be entailing an unnecessary expense on the county. The county funds are at a low ebb, and while we want law enforcement, we do not think they are needed here. And that for us to agree to approve claims against the county for whiskey constables salary would be unfair to the county, and useless waste of the peoples money.

We thought you did a wise thing when you removed constables from this county last spring. Courts may compel us to pay your appointees, if any you make, but we desire to enter our protest against any appointments that we have to pay.

We are uncertain as to whether the \$3.00 per day includes expenses. We had two constables that were paid \$2.50 per day and expenses. If you conclude to make the appointments, we trust that if the first few months of service fail to show good results, that you will remove them. Since the passage of the "Gallon a month" law there has been a great improvement in liquor condition in this county. None of us know of any flagrant violation of the law and we are from several sections of the county.

We wish to hold up your hands in law enforcement, but it is the waste of public funds we are protesting against.

Yours truly,
(Signed) J. Mack King,
Chairman.
J. L. McGee,
W. A. Spearman,
R. D. Smith,
Board of Co. Comm'rs., A. C.

Columbia, July 26, 1915.
Mr. Joe H. H. Ashley, Sheriff,
Anderson, S. C.

Dear Sir:—
In pursuance of your request of May 8th, followed by your verbal request a few days ago, to appoint two constables for Anderson county to break up the illegal liquor business, I took up this matter on the 21st, with the board of county commissioners, as compensation for the services of these men would have to be paid by the county under Section 840, Code of 1912, Volume 2. I have heard from the board of county commissioners this morning protesting strongly against the appointment of constables, saying "the courts may compel us to pay your appointees, if any you make, but we desire to enter our protest have to pay;" and also saying, "We against any appointments that we wish to hold up your hands in law enforcement, but it is the waste of public funds we are protesting against." I do not think that it is proper for me to go ahead and appoint constables in the face of such a protest from the board of county commissioners, therefore I do not see my way to the appointment of the men you have asked for.

In view of the attitude of the county commissioners against employing extra men, and in view, too, of your statements to me that the liquor traffic is going on and should be stopped. I want you to redouble your efforts to this and hope that by vigorous action by you and your deputies and the magistrates and their constables, that the trade in illicit liquor will be broken up.

I am,
Very truly yours,
Richard I. Manning,
Governor.

NOW TAKING UP TRACKS ON SOUTH MAIN STREET

MR. W. W. JOHNSON BEGAN WORK YESTERDAY

CARS ARE STOPPED

And Passengers Are Transferring
—Manner in Which the Work is to Be Done is Interesting.

The actual work of taking up the street car tracks of the Southern Public Utilities company on South Main street was begun yesterday afternoon. Mr. W. W. Johnson, who has the contract for this work stated yesterday that probably he would begin laying the concrete by Friday.

Owing to the fact that the street car tracks are being torn up, passengers using the cars to and from Orr and Gluck mills and to and from Riverside mill have to transfer from Church to River street. This section will be the first one paved and the work will go right on down South Main street.

After taking up the tracks the first work to be done will be that of taking up the old water main which was placed beneath one of the old rails. A new main has been placed along side the old one to take its place. After the old man is removed the ditch will be filled with a rock and sand mixture.

One noticeable feature of the street car track paving will be that there will be no wooden cross-ties and no wooden ballasts under them. The rail for its entire length will be supported by a concrete beam, reinforced with corrugated steel bars, in accordance with modern concrete practice. This beam by its strength and stiffness will distribute the loads over such a large area that the settlement of the tracks will be even, and have no effect on the pavement. A wide bearing plate will be used under the rail, so that the weight will be distributed over eight inches width, and there can be no crushing of the concrete.

The beam constructions will be anchored at two-foot intervals with long bolts, which will be turned under the reinforcing bars in the concrete beam.

Great attention will be also paid to the joints in the track since it has been conceded that the pounding break up the pavement. Where one rail is a little higher than the one adjoining, the joint will be ground to an absolute level.

The paving where the tracks will be placed will be about 18 inches deep and will gradually slope to a thickness of about five inches on the outside of the tracks and to the center. The paving will extend 18 inches on the outside of the rails.

In doing this work the rails will be put down on leveling blocks before the concrete is put down. The mixture will then be put down all around the rails, the girder and the connecting bolts, so that when the concrete dries, they will be absolutely secure.

TO START BUILDING THE NEW HOSPITAL

A Force of 15 Hands Will Start
Work This Morning Under
Supervision of Mr. Owens.

A force of 15 hands will this morning begin the excavation preparatory to the erection of St. Mary's hospital in North Anderson. Mr. Owens, contractor, will superintend the work and the building is to go right ahead.

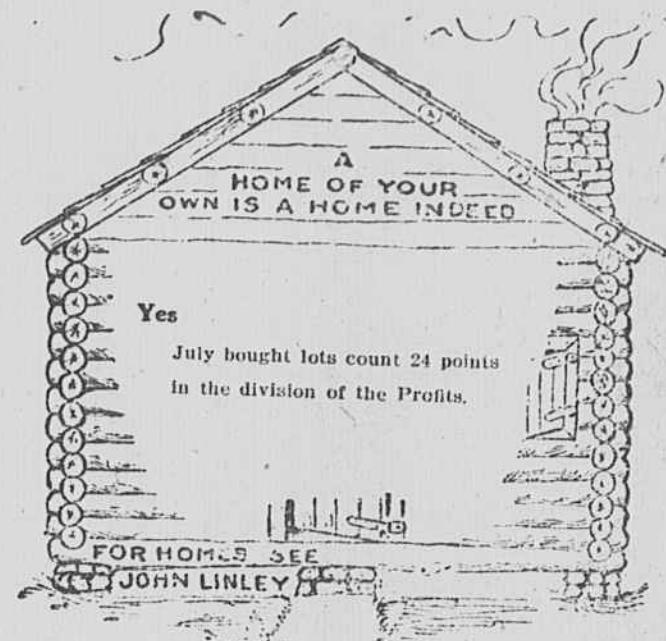

Dr. Breedin stated yesterday that he had received congratulatory messages from different sections of the county and assurances of support had been received. He stated that several of the rooms would be endowed in memory of loved ones.

Ladies! Secret To Darken Gray Hair

Bring Back its Color and Lustre
With Grandma's Sage Tea
Recipe.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss. While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

Very truly yours,
Richard I. Manning,
Governor.

So

Don't let July get away without your buying a North Anderson lot.

4 Days Left,

And we expect them to be busy days—Mr. J. F. Gaillard bought a lot yesterday—and we feel certain of selling at least one lot a day during the rest of the week.

And Surely

It is an unusual opportunity to be able to buy a lot in a section like North Anderson for \$10.00 cash and \$10.00 a month. Such offers are usually made only in new and undeveloped sections.

Residence REV. D. W. DODGE.
Anybody might well be proud of the grounds about Mr. Dodge's home.

J. R. Snelgrove's HOUSE WAS BURNED

By Fire Yesterday Afternoon
About 1:30—Building and
Contents Insured.

The home of Mr. John R. Snelgrove at 1601 South Main street, just beyond the city limits, burned yesterday afternoon about 1:30 o'clock. Both house and furniture were destroyed. Insurance to the amount of \$2,500 was carried on the building and \$800 on the furniture.

The alarm was sent in from beyond the city limits and when the fire department reached the scene the entire building was in flames. They had made great headway and the firemen could do nothing except confine the flames to that building, and owing to the fact that the house was covered with metal shingles, and the efforts of the firemen, the homes of Mr. J. P. Goforth and Mr. C. M. nearby were saved.

The building which was destroyed was a six room dwelling, and Mr. Snelgrove stated yesterday afternoon that the cost of the building was about \$3,700. He was in the city when the fire was discovered and his family being in the mountains, there was no one at home. He said that he had not been in the house in three or four days and that there had been no fire in it during that time. It is supposed that the fire originated from a short circuit in the electric wires.

Better be safe than sorry—Willett P. Sloan, insurance.

The Acker Reunion.
The Acker-Holbert Reunion will be held at Shady Grove Baptist church, on Wednesday the 4th day of August. There will be a program arranged consisted of:
Song service.
Prayer.
Reading of minutes.
Speech on "Education," by Samuel Prince, Esq.

Leaders in Bridgeport Arms Strike.

J. J. Keppler, vice-president of the Machinists. Richard Patterson, president of the carpenters union. John A. Johnston, vice-president of the structural iron workers.

These three men, John A. Johnston, vice-president of the structural iron workers, J. J. Keppler, vice-president of the machinists, and Richard Patterson, president of the carpenters union, were leaders in the effort to get thousands of union men to quit their work on the new buildings of the Remington Arms company in Bridgeport, Conn. Samuel Gompers, president of the American Federation of Labor, has made the flat footed statement that German influences, if not German money, had been used in an attempt to have men making munitions of war for the allies leave their work. The Remington company in Bridgeport is putting up the largest plant of its kind in the world, one in which will cover 102 acres. If work on their buildings is hindered the cause of the allies will be hampered.

End of the Month Special

For the balance of July we will sell the World renowned JOHNSON Floor Wax which retails everywhere at 50 cents per pound cans at, per pound can

35 cents

This is undoubtedly the very best preparation for good floors. Here's a genuine reduction of 30 per cent on a staple article, but the offer is good only for this week. So, come around now!

C. M. Guest Paint Co.
